PROFESSIONAL SUMMARY

Licensed Electronics Engineer and experienced data & reporting analyst skilled at turning data into valuable insights. Focused on improving business processes, boosting efficiency, and supporting smart decision-making through dashboards, SQL reporting, and workflow automation. Strong analytical and problem-solving skills with keen attention to detail. Recently expanded into building and deploying custom, AI-powered web applications end-to-end for clients — pairing an analyst's rigor with AI development tools to ship working solutions fast.

CORE SKILLS & TOOLS

- Microsoft Excel — advanced Macros & VBA programming
- SQL & SQL Server Management Studio
- Microsoft 365 & cloud-based collaboration tools
- Data validation, QA & reporting accuracy
- Microsoft Power BI — dynamic data visualization
- Microsoft Power Automate — workflow automation
- JobDiva — data retrieval, analysis & reporting
- Analytical thinking & problem solving

AI SOLUTIONS BUILDER — side capability, kept separate from core analytics

Designing, building, and deploying full working web apps end-to-end with AI development tools. Toolset: Python · Flask · LLMs / AI Vision · OCR · REST APIs · SQLite · Docker · Azure deployment · full-stack web apps. Examples: an AI-powered app that reads scanned PDFs and extracts structured data, and a reconciliation tool that matches Medicaid remittance PDFs against billing exports across a full billing cycle — both built for Zycron Industries and deployed live on Microsoft Azure.

PROFESSIONAL EXPERIENCE

Reporting Analyst
Jun 2024 – Present

Tailored Management — IT Park, Apas, Cebu City

- Design and develop reports, visuals, and dashboards for cross-departmental stakeholders, delivering clear insights and data-driven support using advanced business intelligence tools.
- Design and maintain complex SQL queries to extract, transform, and analyze data from relational databases for reporting and decision-making.
- Support data validation for new and existing reports to ensure accuracy, consistency, and reliability of insights.
- Collaborate with recruiting managers, client relationship executives, and leadership on the design of new reports and the alteration of existing ones.
- Provide tools for analyzing recruitment data and generating detailed reports to track performance metrics and support data-driven decisions.

Data Analyst
Jul 2022 – May 2024

Taiyo Yuden (Philippines), Inc. — Product Engineering Dept., Lapu-Lapu City, Cebu

- Analyzed production and product-engineering data to surface trends and support process improvements and decision-making.

Product Supervisor
Apr 2016 – Jun 2022

Taiyo Yuden (Philippines), Inc. — Product Engineering Dept., Lapu-Lapu City, Cebu

Product Engineer Feb 2014 – Mar 2016

Taiyo Yuden (Philippines), Inc. — Product Engineering Dept., Lapu-Lapu City, Cebu

EDUCATION

Bachelor of Science in Electronics Engineering

University of San Carlos — Technological Center, Cebu City · 2008 – 2013

LICENSES & CERTIFICATIONS

- Licensed Electronics Engineer (ECE) — 2013
- TESDA Instrumentation & Control Servicing NC II — 2013

ACHIEVEMENTS

- Best Working Scholar of the Year — Analog Devices Laboratory, USC (2012)

AFFILIATIONS

- Institute of Electronics & Communications Engineers of the Philippines (IECEP)
- Carolinian Working Scholars' Association (CAWSA)

PROFESSIONAL DEVELOPMENT

Six Sigma · SMART Networking Fundamentals (OSI, IPv4, Routing & Switching, Subnetting) · Basic C/C++ Programming & Introduction to Linux · Solar Energy & Design · Building Auxiliary Systems
